GIMMiwITS™

DAZZALIN FOUNTAIN

There is an ancient fountain — a wondrous and beautiful one called Dazzalin Fountain, the source of everything good that exists in the Gimmwitt Universe — joy, love, patience, harmony, kindness and peace.

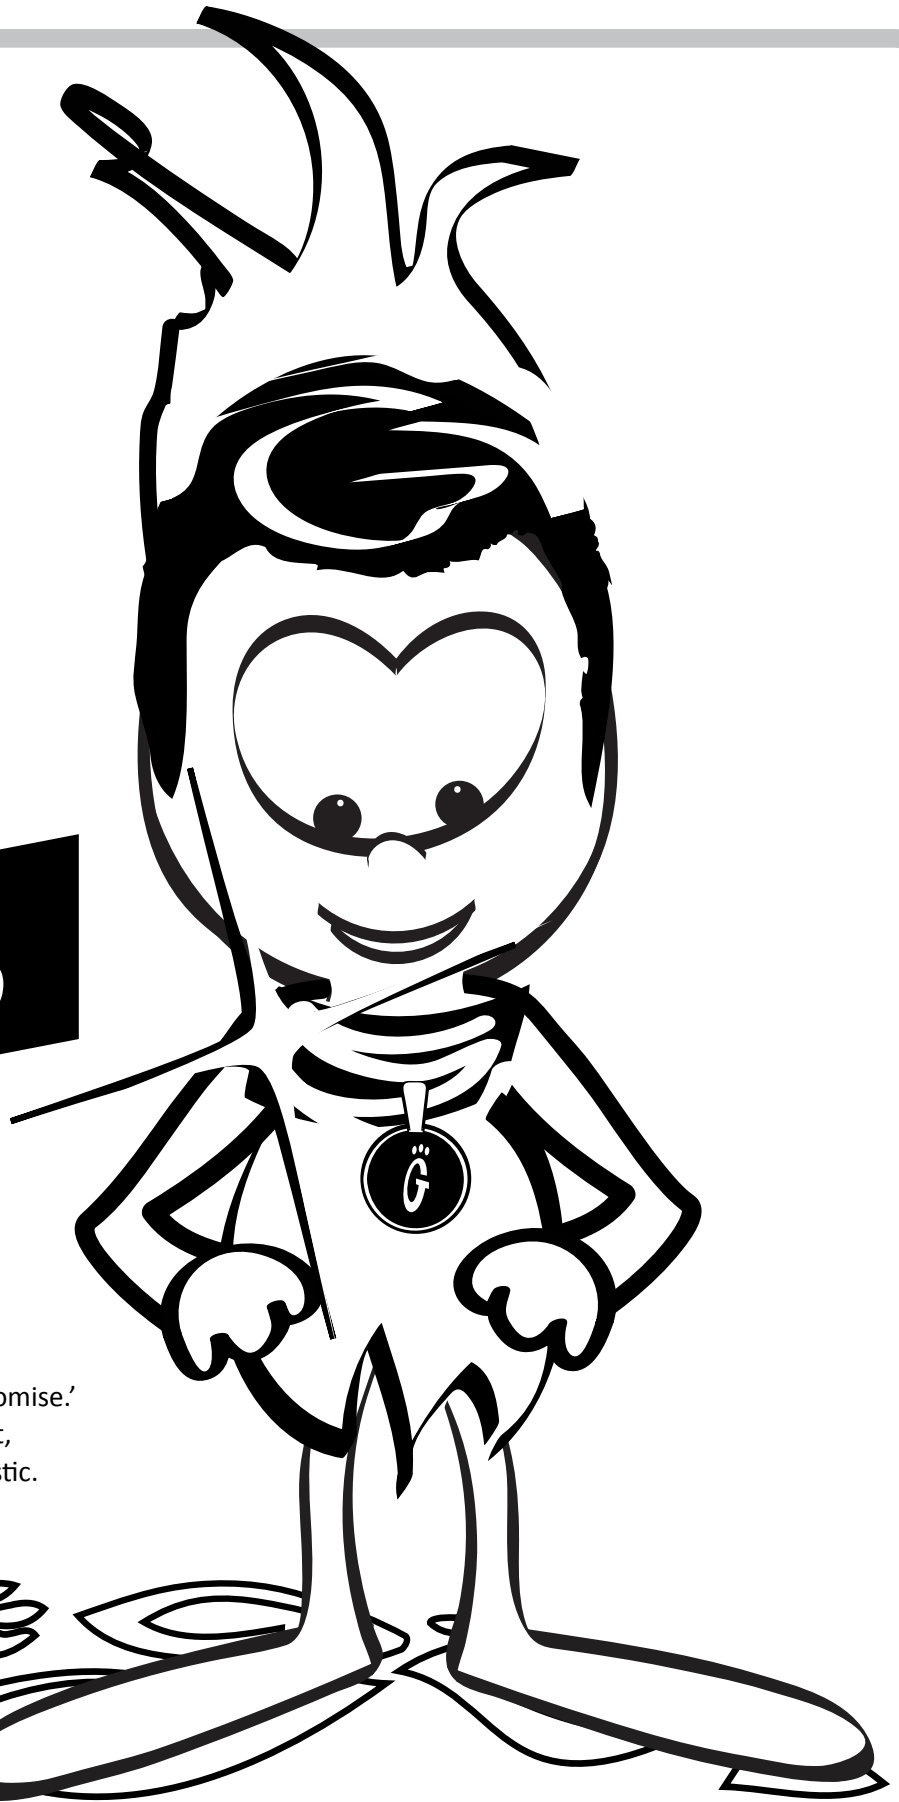

PRINCE GLOBOND

(Prince Glow-bond)

Prince Globond is our 'Prince of Promise.'
Heir to the throne, he is very bright,
creative, full of energy, and optimistic.

SQUIRM

Squirm, who is Globond's best friend, can change her size, becoming small enough to ride on Globond's shoulder to very big. She is a sweetheart with magic bumps on her head and can make a wish come true! Well, some wishes ...

Globond has always lived in the Castle of Royal Harmony with his father, the kind and wise King Globe, and his loving mother, Queen Goody.

(Jah-sarah)

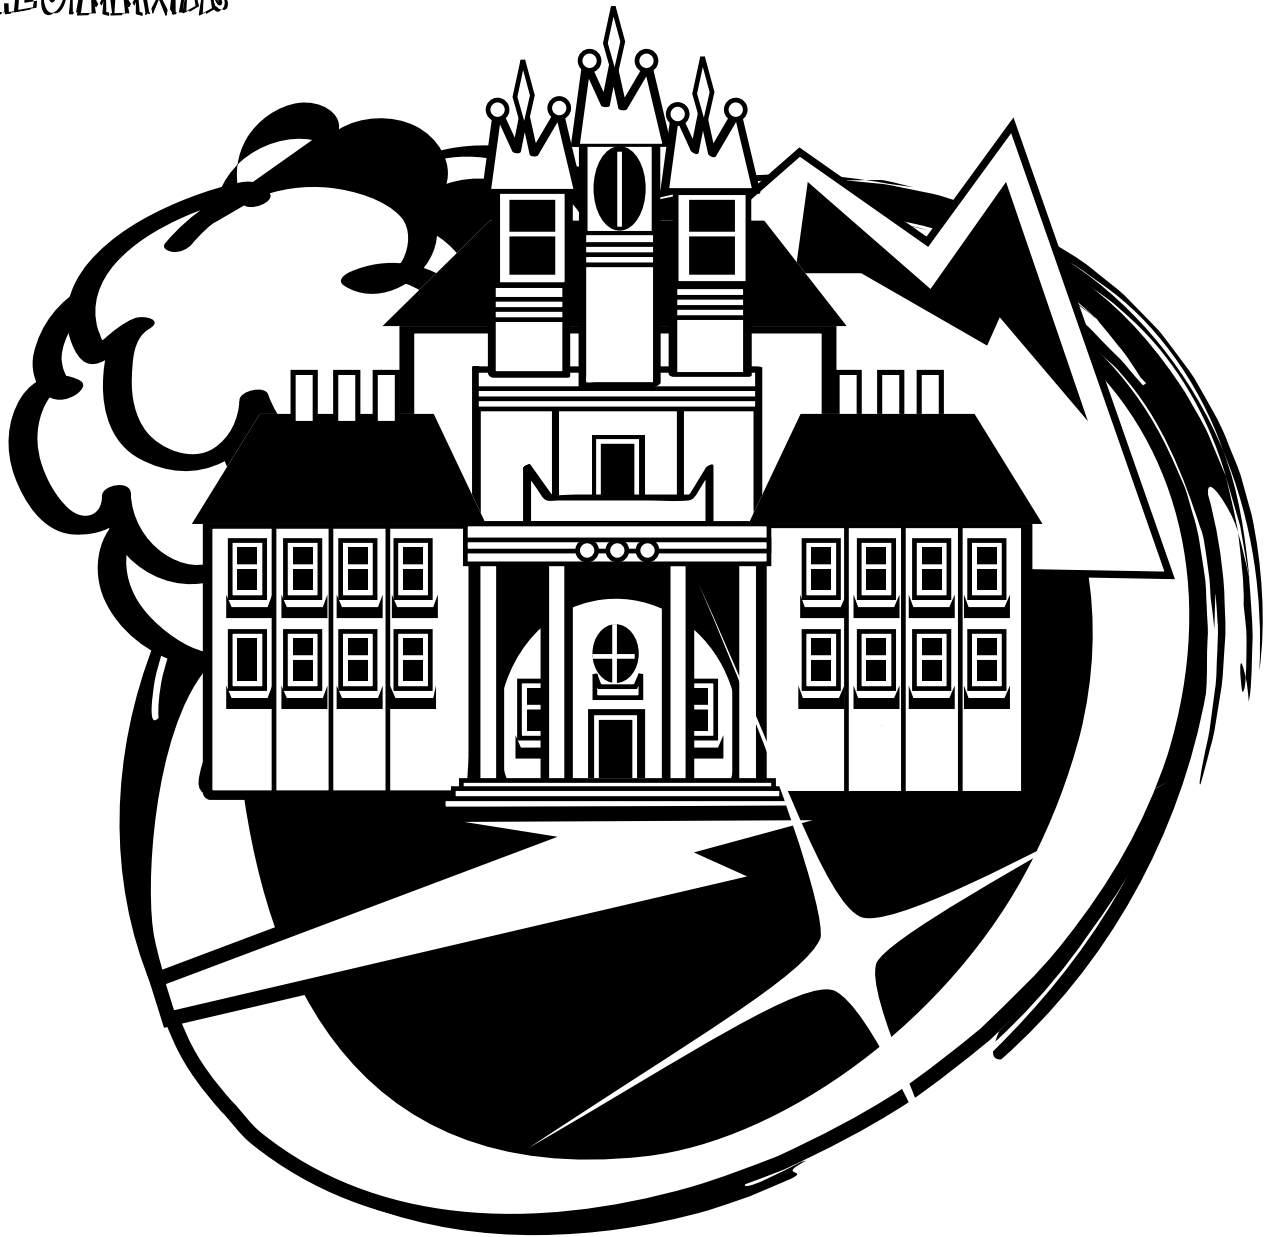

Jaz has a great responsibility! As Master of The Flying Jewels, it's her job to share the Dazzalin Fountain's light and energy with eighteen other Flying Jewels (nine boys and nine girls).

JAZARAH
MASTER OF THE FLYING JEWELS

As Flying Jewels, their purpose is to radiate Dazzalin Fountain's light to all of the Gimmwitts, so that the Gimmwitts can share and live in joy, love, patience and all those other wonderful things.

**THE FLYING
JEWELS**

(Gal-aunt)

The main world in the Gimmwitt Universe is Galant, where the Gimmwitt royal family lives in the Royal Castle of Harmony. King Globe is always decent and fair, and his basic goodness helps him to rule wisely over the entire Gimmwitt Universe. Galant is an beautiful but also a mysterious world where the Flying Jewels spread their positive energy to all.

**THE WORLD OF
GALANT**

(Gent-ee-anne)

Gimmwitts who are native to Gentiann don't walk or crawl, they simply float effortlessly in the air. Golden flooz bushes are almost everywhere — the leaves are tasty and the beautiful flowers produce golden vapors that Gimmwitts can use to transport themselves to other Gimmwitt worlds — they call this a golden flooz ride.

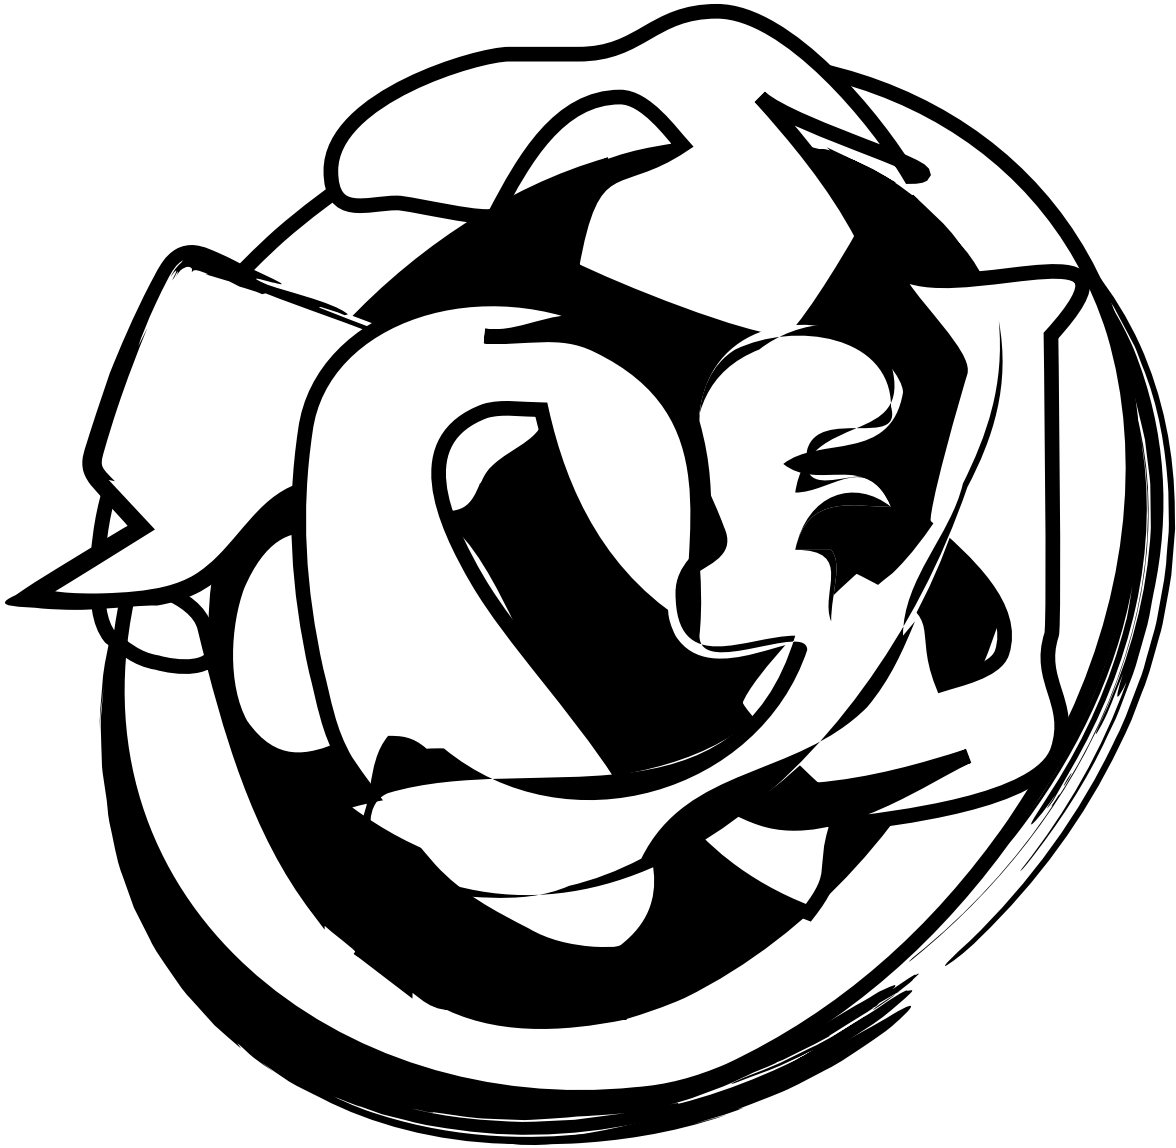

**THE WORLD OF
GENTIANN**

(Gay-tron)

Gatron is a world of majestic mountains, beautiful meadows and home of the mysterious Dazzalin Fountain — a wellspring of love, joy, peace, patience, and kindness. It's the supreme source of all goodness, and it glows with millions of colored lights. It is the secret place where Jazarah, the Master of the Flying Jewels, recharges her energy. However, it is atop high cliffs, and few have seen it.

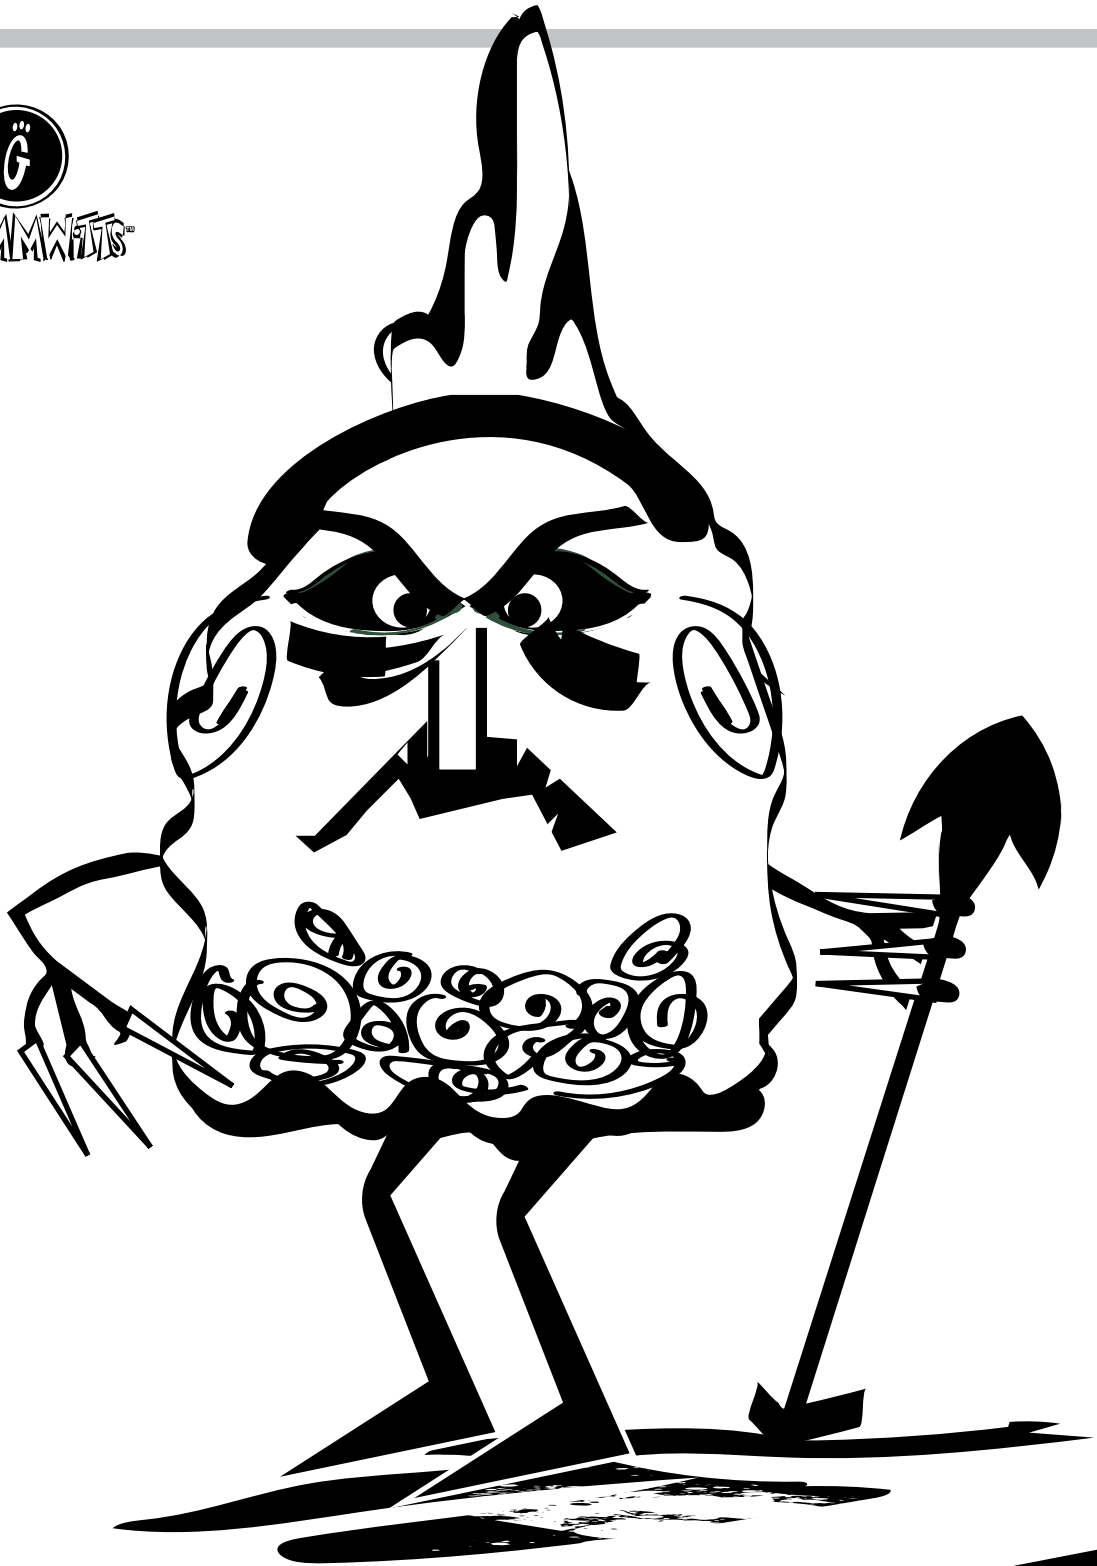

**THE WORLD OF
GATRON**

(Waste-Land)

Never has there existed a world so polluted and foul and full of mean-spirited evil mischief-makers called Wastekings. Long ago it was a nice enough place, but now the slimy sludge and muddy muck has turned it into a sorry disgrace to the Gimmwitt Universe. This is where the evildoers are banished.

**THE WORLD OF
WASTELAND**

Rogud is the crabby, evil leader of the Wastekings who became the leader by defeating Vice the Vicious in battle. He loves waste of all kinds, including goo and gunk and muck and junk. He wants all the Gimmwitt worlds to be filled with waste.

**ROGUD
OF MUD**

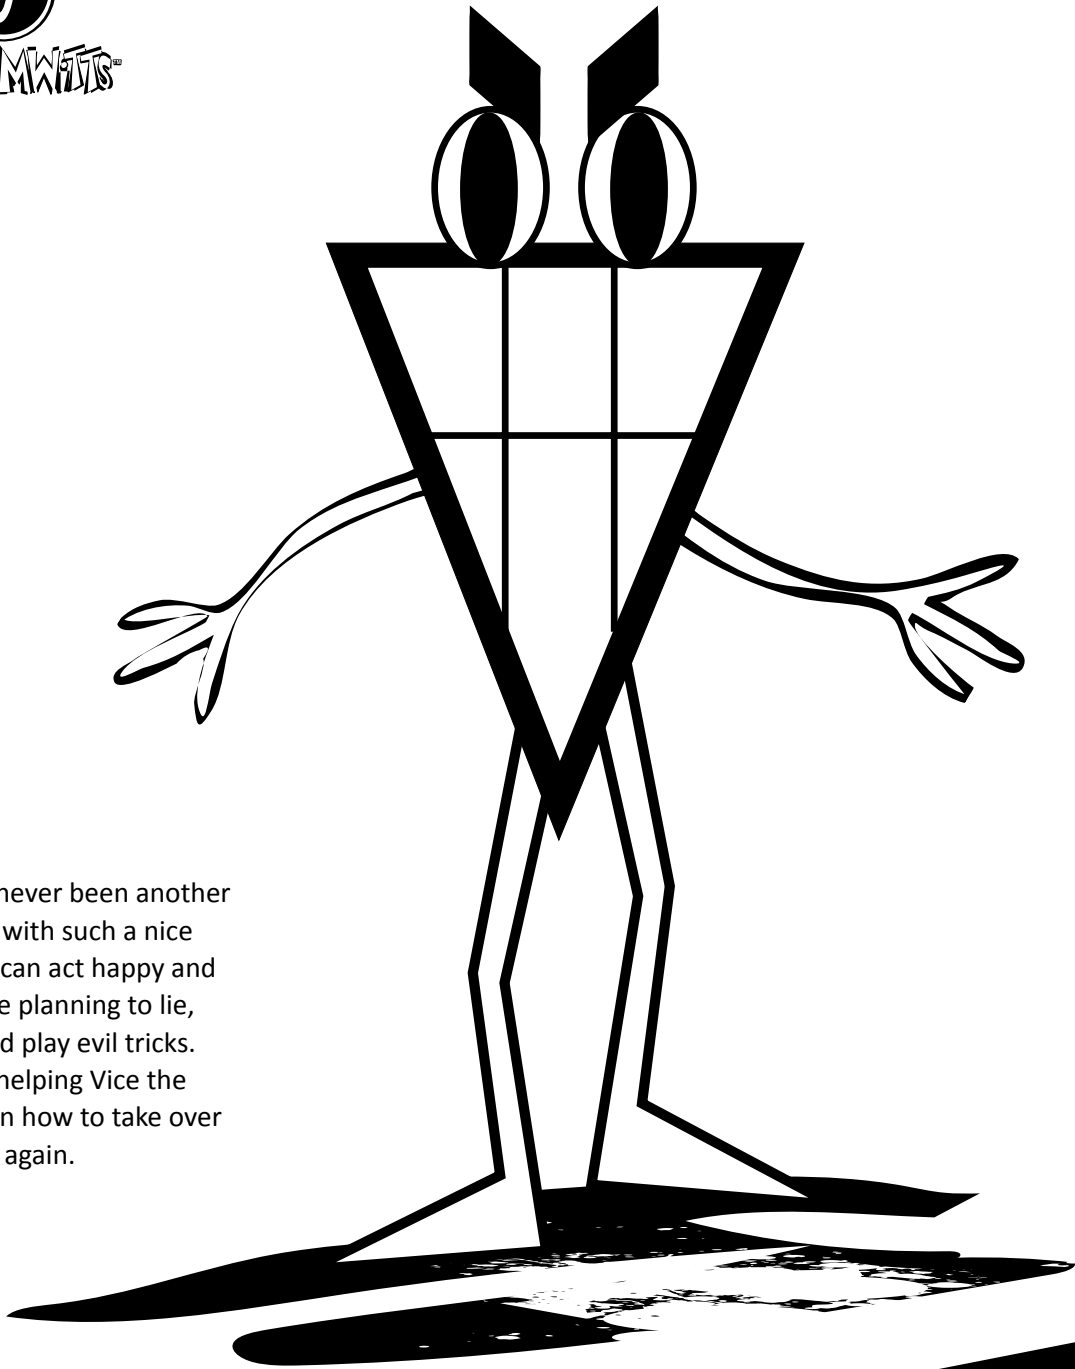

Angry that he was defeated by Rogud of Mud, Vice the Vicious lives for the day when he can take over Wasteland again. His front teeth are fangs that he can make very long — long enough so he can pole vault to leap up on top of buildings or cliffs.

VICE
THE VICIOUS

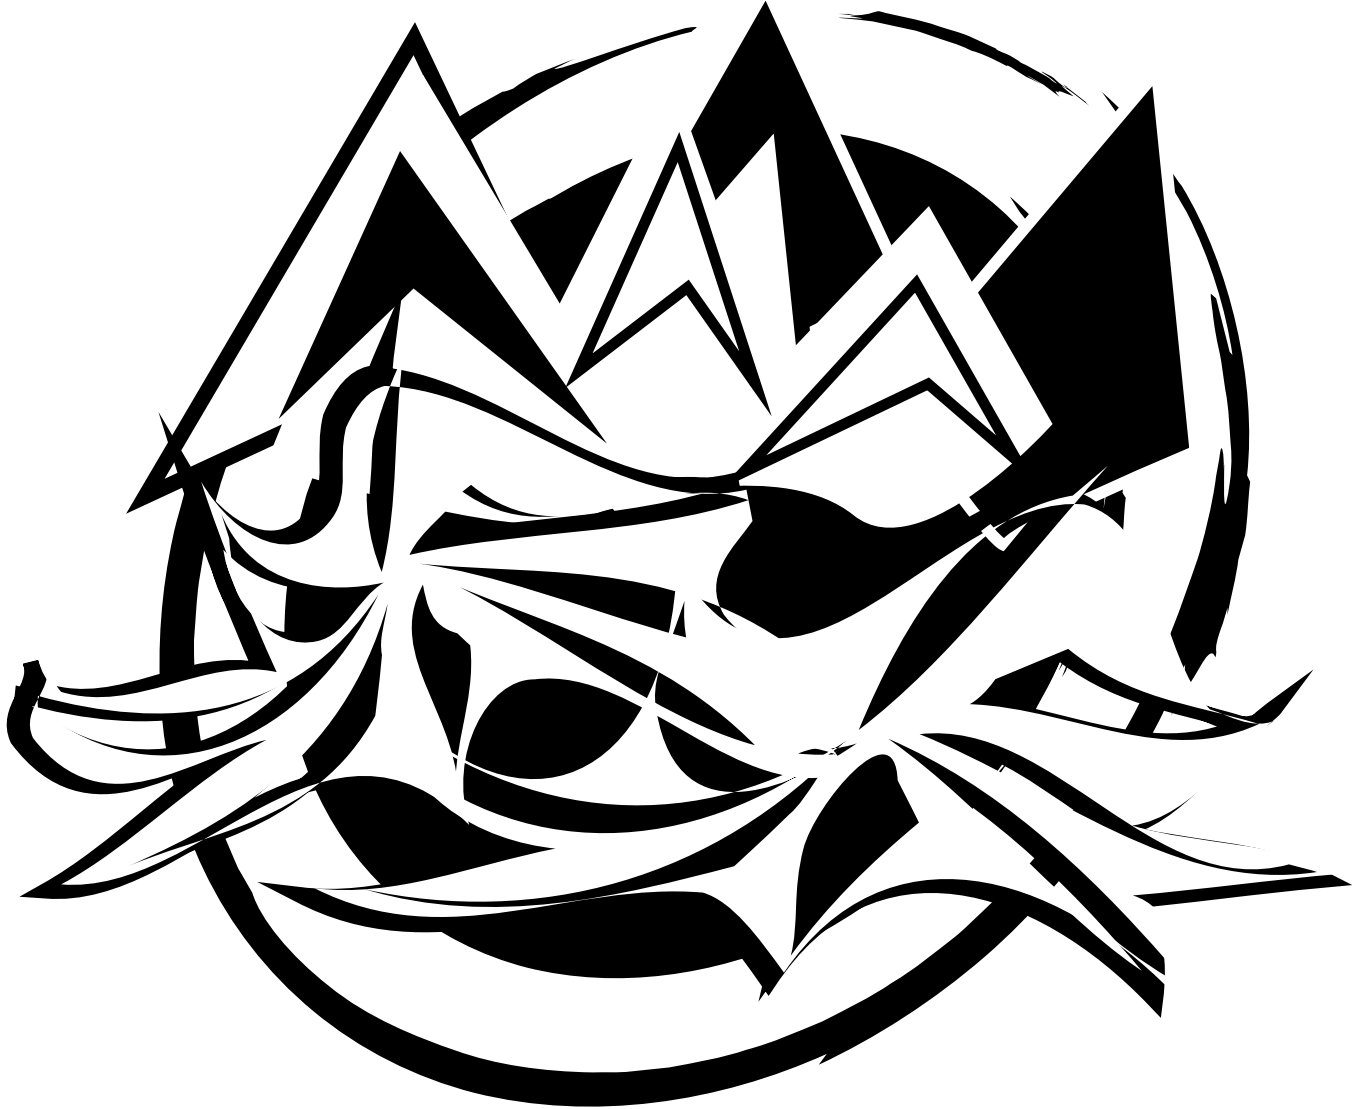

Smogg will take any assignment to please Rogud of Mud. He will steal anything he's told to steal. He was raised in Wasteland, and he knows how to break into any house or building and how to crack a safe. Oh, and he stinks, A LOT.

SMOGG
THE STINKIN THIEF

There has never been another Wasteking with such a nice smile who can act happy and polite while planning to lie, deceive and play evil tricks. He's been helping Vice the Vicious plan how to take over Wasteland again.

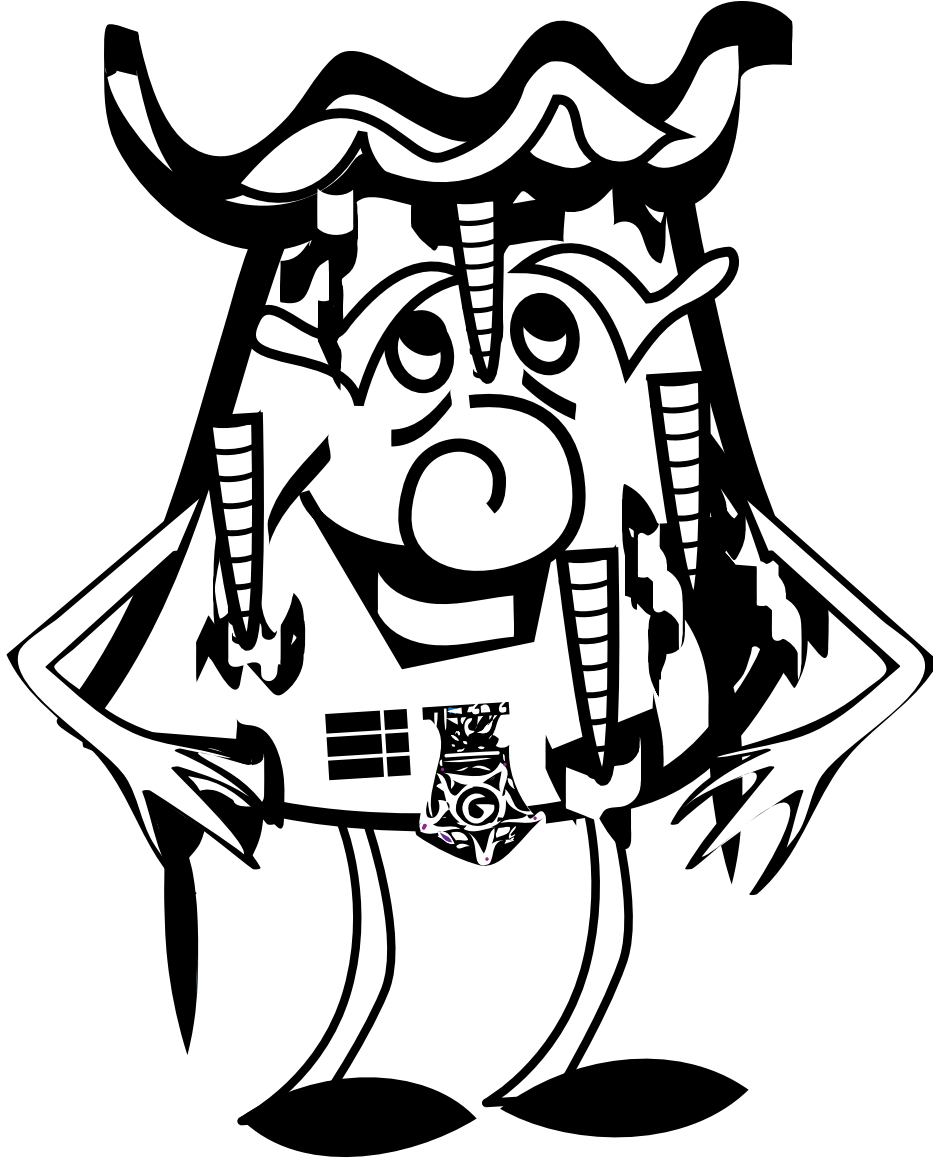

FAKE SMILEY
THE TRICKSTER

(Glaz-zarr)

Glazar is known as the world of truth — especially when someone looks you in the eye — you cannot lie! It's filled with a wild wonderland of snow, ice and huge goflakes to ride — a ride any snowboarder would envy! Glazar Gimmwitt natives love the cold and have regular goflake fights that end with exaggerated stories about the game and drinking their favorite beverage — iced tea.

**THE WORLD OF
GLAZAR**

(Freeze-ickle)

Freezicle lives on the Gimmwitt world of Glazar, a world of snow and ice, and he loves goflake fights, which are like snowball fights that use large goflakes rolled into balls.

FREEZICLE

(Go-gah-jumble)

A world full of jungles and open plains. It's known for its famous black-and-white zebra leaf plants and brilliant purple flooz flowers (which create purple flooz rides — transportation to other worlds that's faster than golden flooz rides.) Often, you can hear the loud mumbles of Mumbly Junglies and the squawking of the Addalots. It is also the home of Magnifymy, a Gimmwitt lady of mystery.

**THE WORLD OF
GOGAJUMBLE**

(Mag-nih-fye-my)

She is the blond lady Gimmwitt who lives on Gogajumble, the Gimmwitt's jungle world. and she's the only Gimmwitt with a bellyscope, a sort of magnifying glass in her belly that helps her see and share the truth. She's like a prophetic, forensic scientist.

MAGNIFYMY

(Gun-ah-qua)

This watery world is where Gimmwitts enjoy peace and healing within deep oceans. They swim or use the many floating tube trees as transportation from one sandbar to another. Many relax on its fine beaches or play games in its shallow ponds. At the Stripes of Gunaqua, new Gimmwitts sometimes spring forth, the likes of which no one has ever seen before!

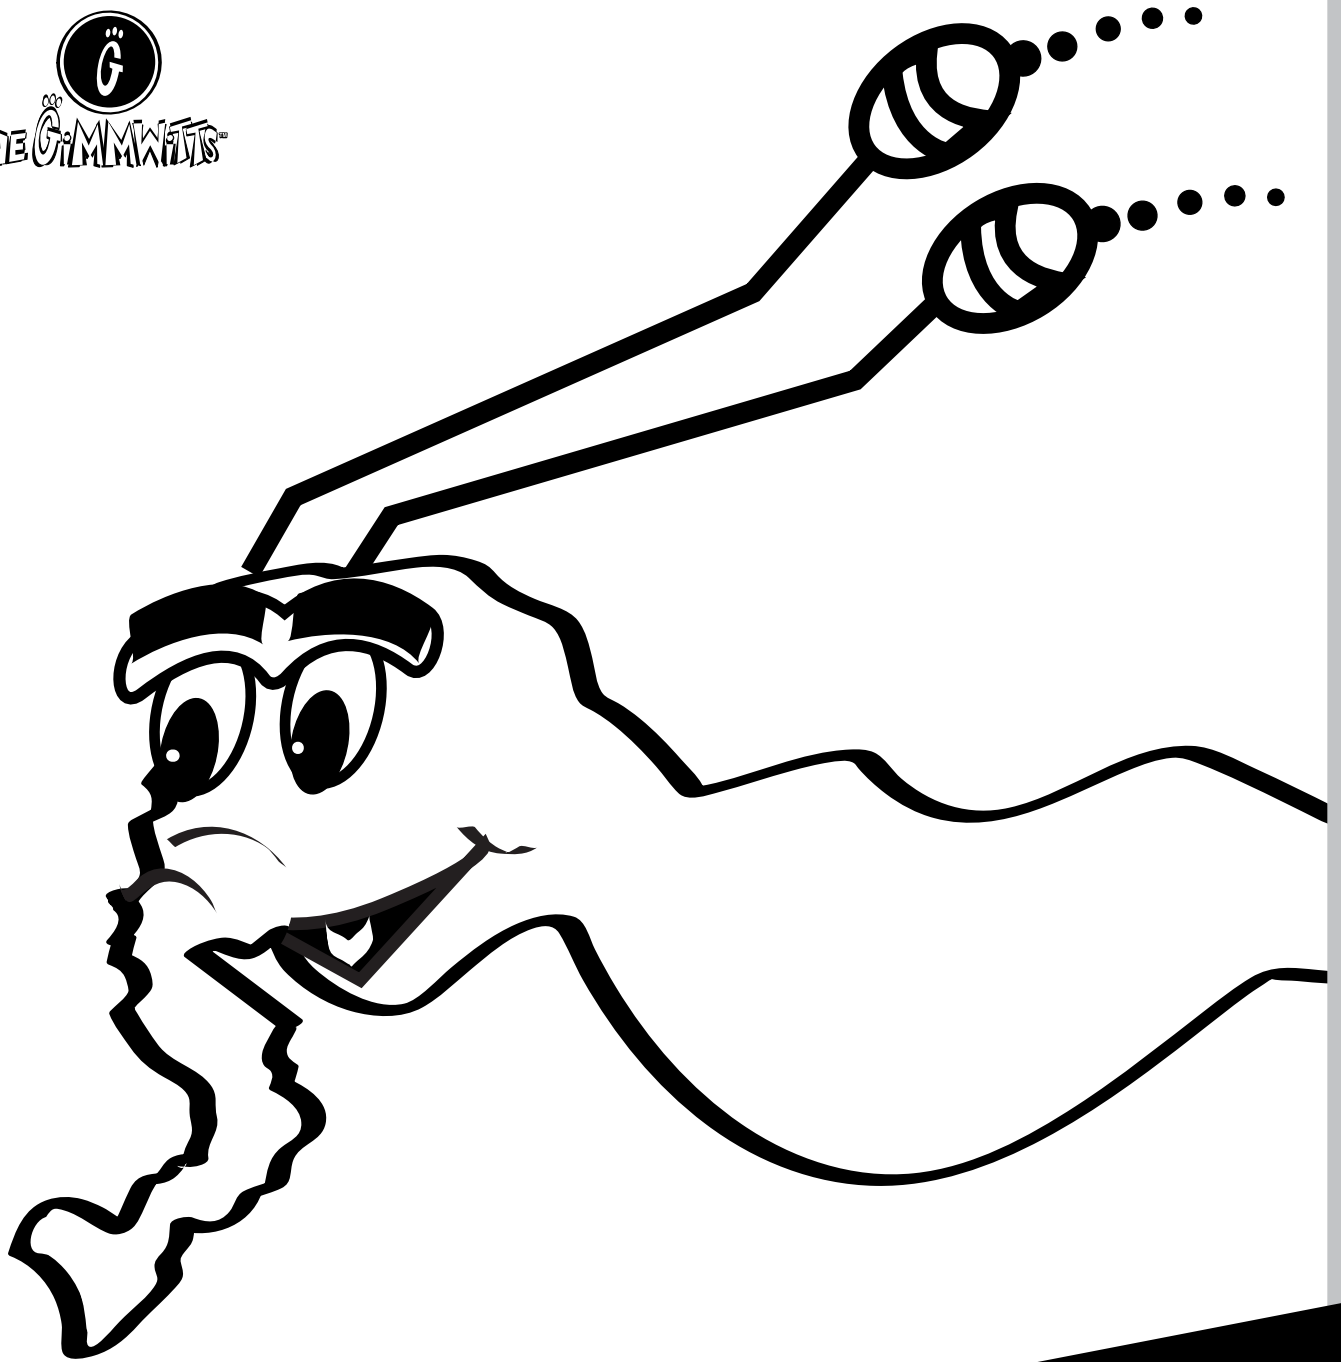

**THE WORLD OF
GUNAQUA**

(Gant-a-sand)

If you enjoy the blazing sun and sand dunes as far as the eye can see, then you'll love Gantasand! Here a windy day can whirl together the golden flooz in the air with intense heat. This combination, like a sticky goo, magically creates sand formations that later harden. Some of these formations make good homes. Others have created the great sand castle ruins that include above ground tunnels with twists and turns — a great place to hide!

**THE WORLD OF
GANTASAND**

SNORKLE

Like Squirm, he has no hands or feet, but he has a trunk that helps him scarf up food all day long — mainly flooz leaves. When he meets Globond, he becomes a loyal and helpful friend. He can float in the air, and, like Squirm, he can change his size.

(Lizz-ah-dynah)

She is Izzy Doon's sister, and Editor-in-Chief for the Lizard News Network. She's hard-working, fun-loving and knows everybody. She likes to play games and she always wins at 'Let's Tell a Secret.'

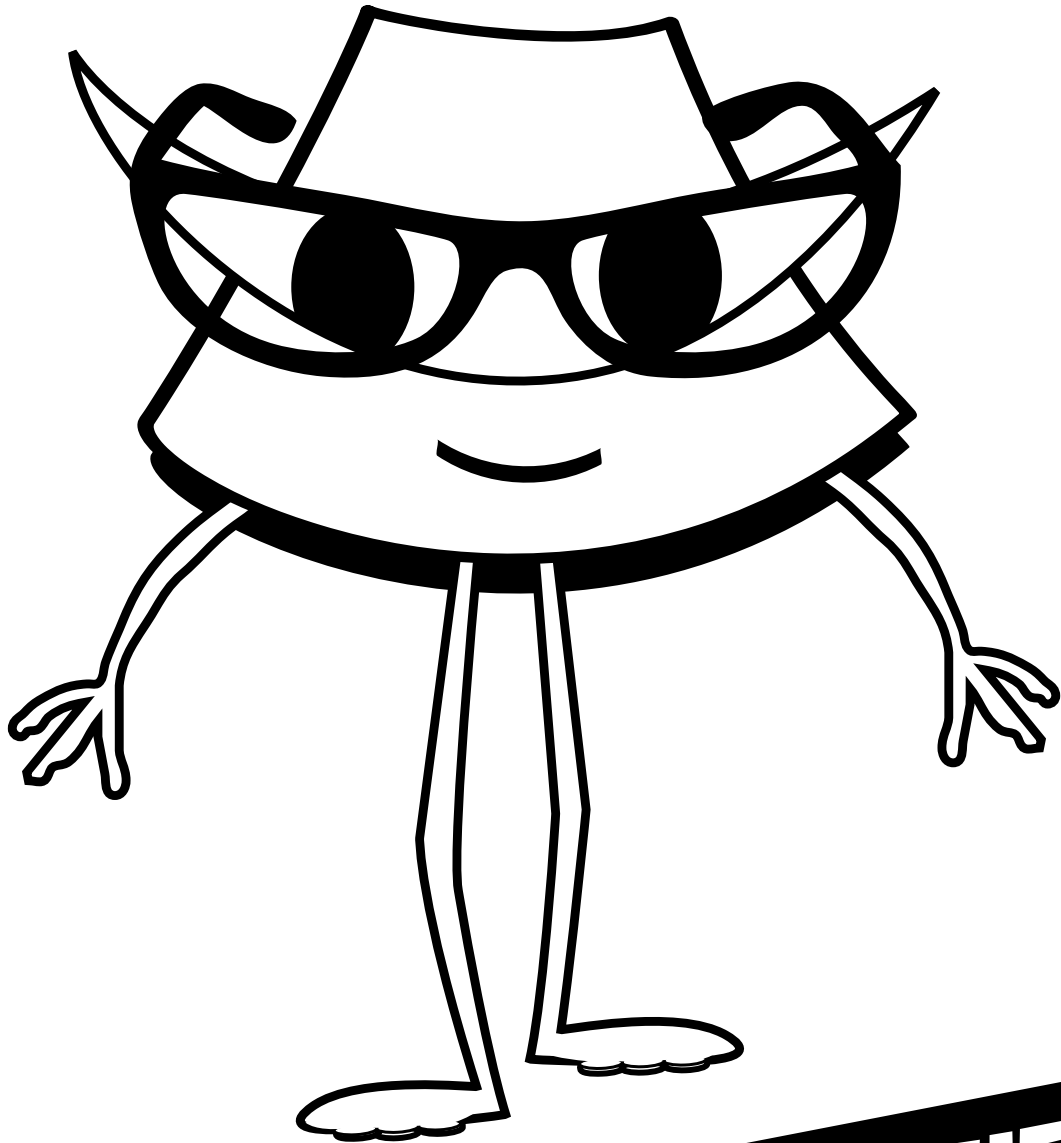

LIZADINA

(Hee-boo)

Hibou is an Addalot, which is a type of Gimmwitt bird resembling a parrot. The Addalots get their name from the fact that they add a lot. They also subtract a lot and multiply and divide a lot. They are math geniuses and they are happy to work for crackers. Hibou is unique to other Addalots — he has more springs — above and below!

HIBOU
THE ADDALOT

**HOOHEE
THE DETECTIVE**

HooHee is number two to Egaroll on the security team. A mischief maker, he's a good detective. He thinks he's funny and laughs at his own jokes.

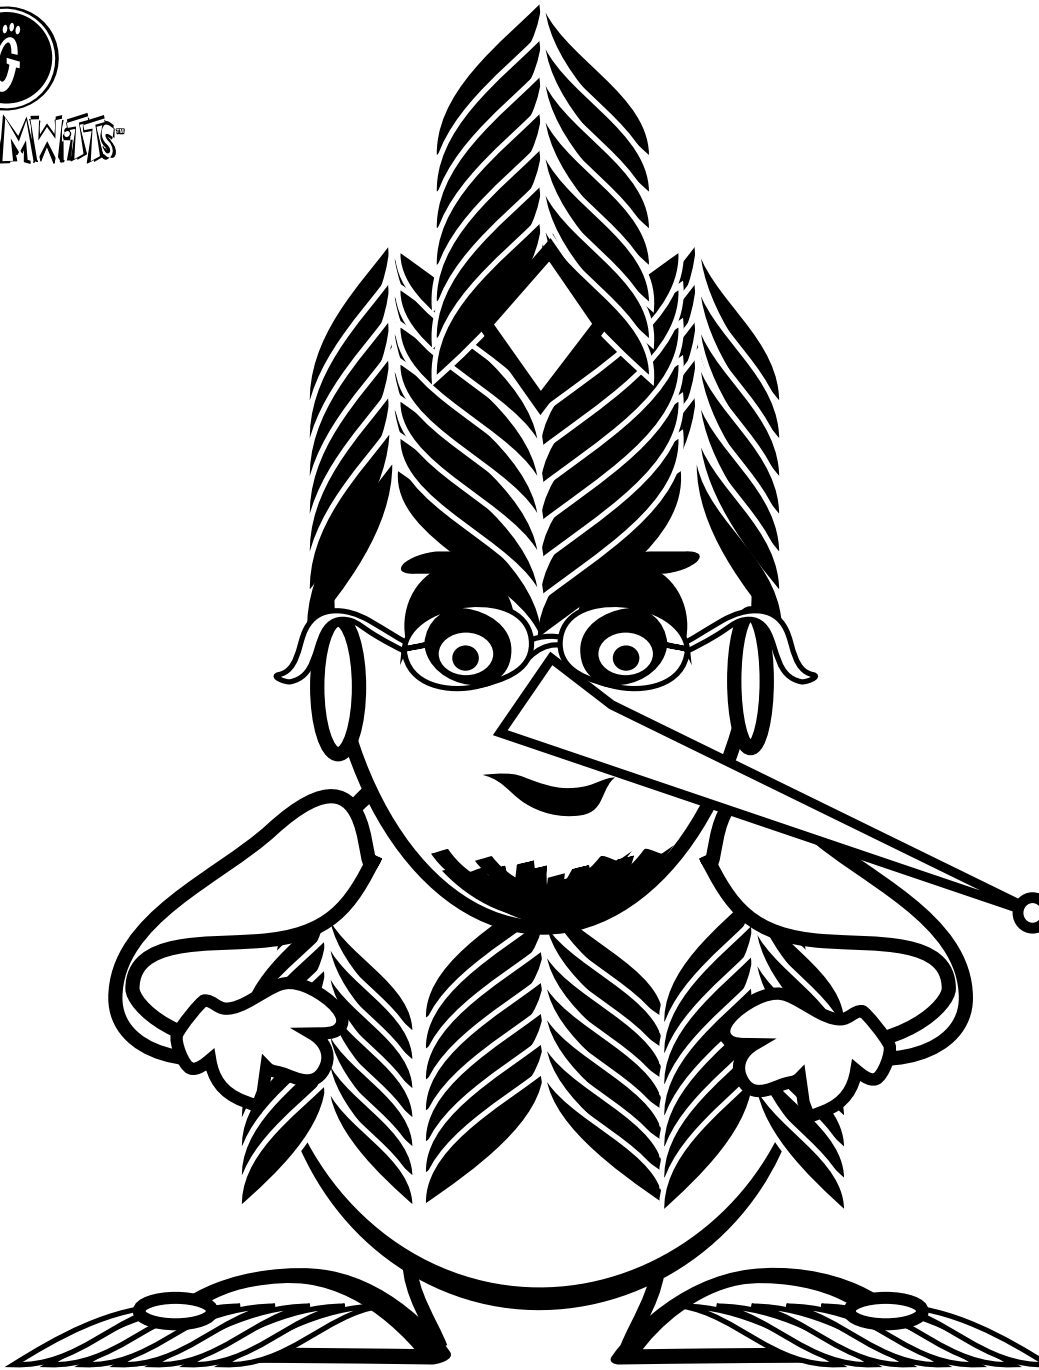

EGAROLL THE CHIEF

(Egg-a-role)

Egaroll is proud to have been appointed as Chief of the Queen's Royal Harmony Security Team. Trained in security in the world of Gatron, he's an expert at flying and Karate.

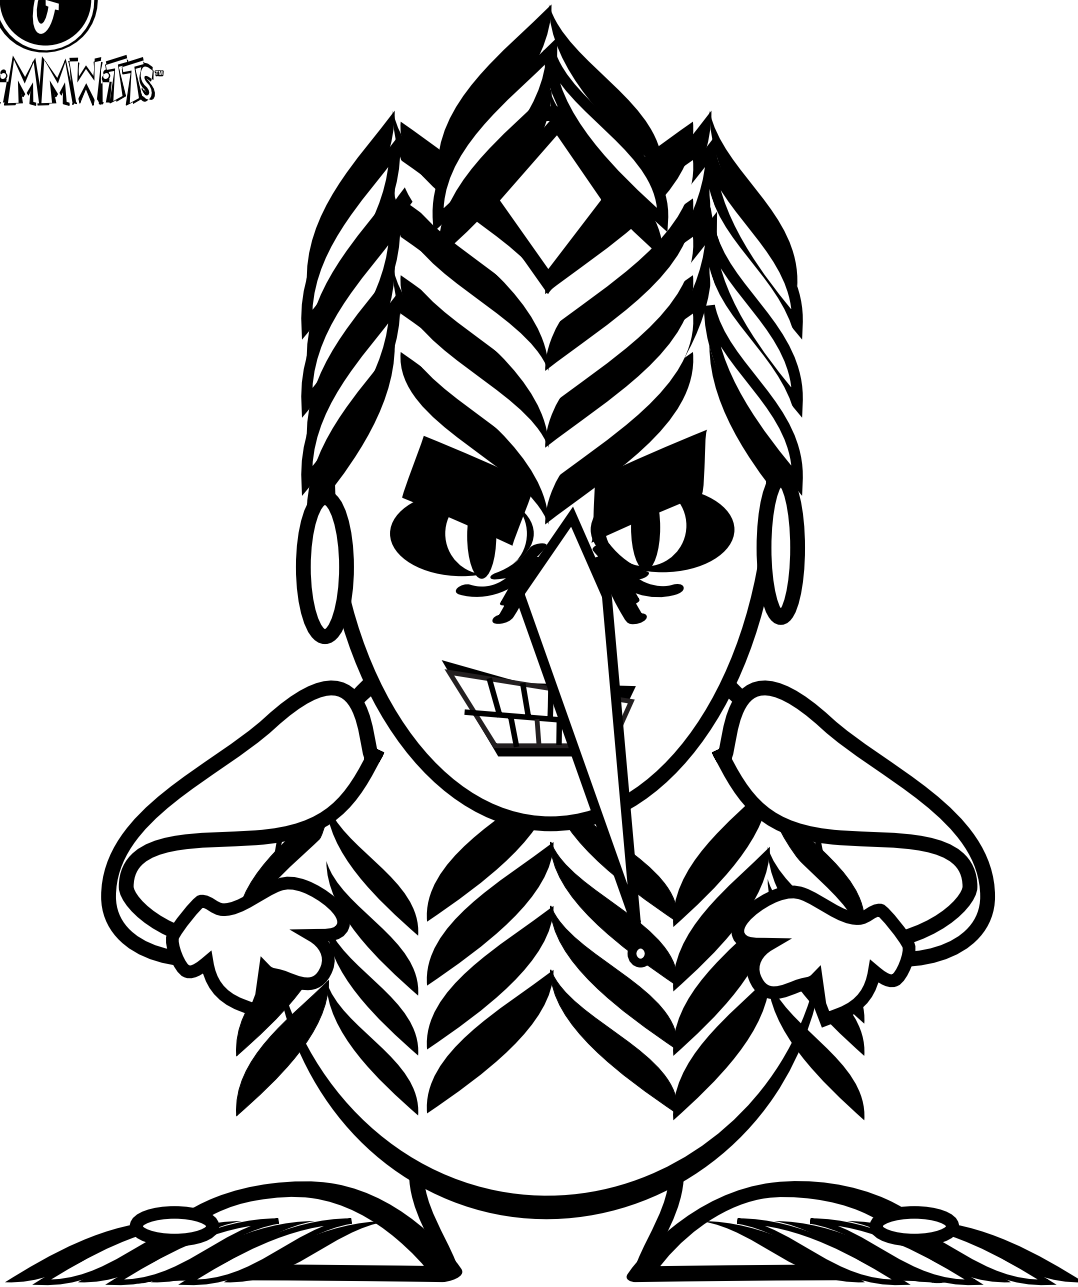

(Raw-bah)

Rawba is the famous Gimmwitt inventor who has a laboratory in Galant and another one in the jungles of Gogajumble. He is respected by the King and Queen but in the past year some of the things Rawba supposedly invented don't work right.

**RAWBA
THE SCIENTIST**

(Rude-ick-er)

Every story is entitled to at least one big surprise, isn't that true? So we're not going to tell you anything about who Rudicker really is, except that he was kidnapped as a baby Gimmwitt and was raised in Wasteland, and no good Gimmwitt should ever trust him (but many do!).

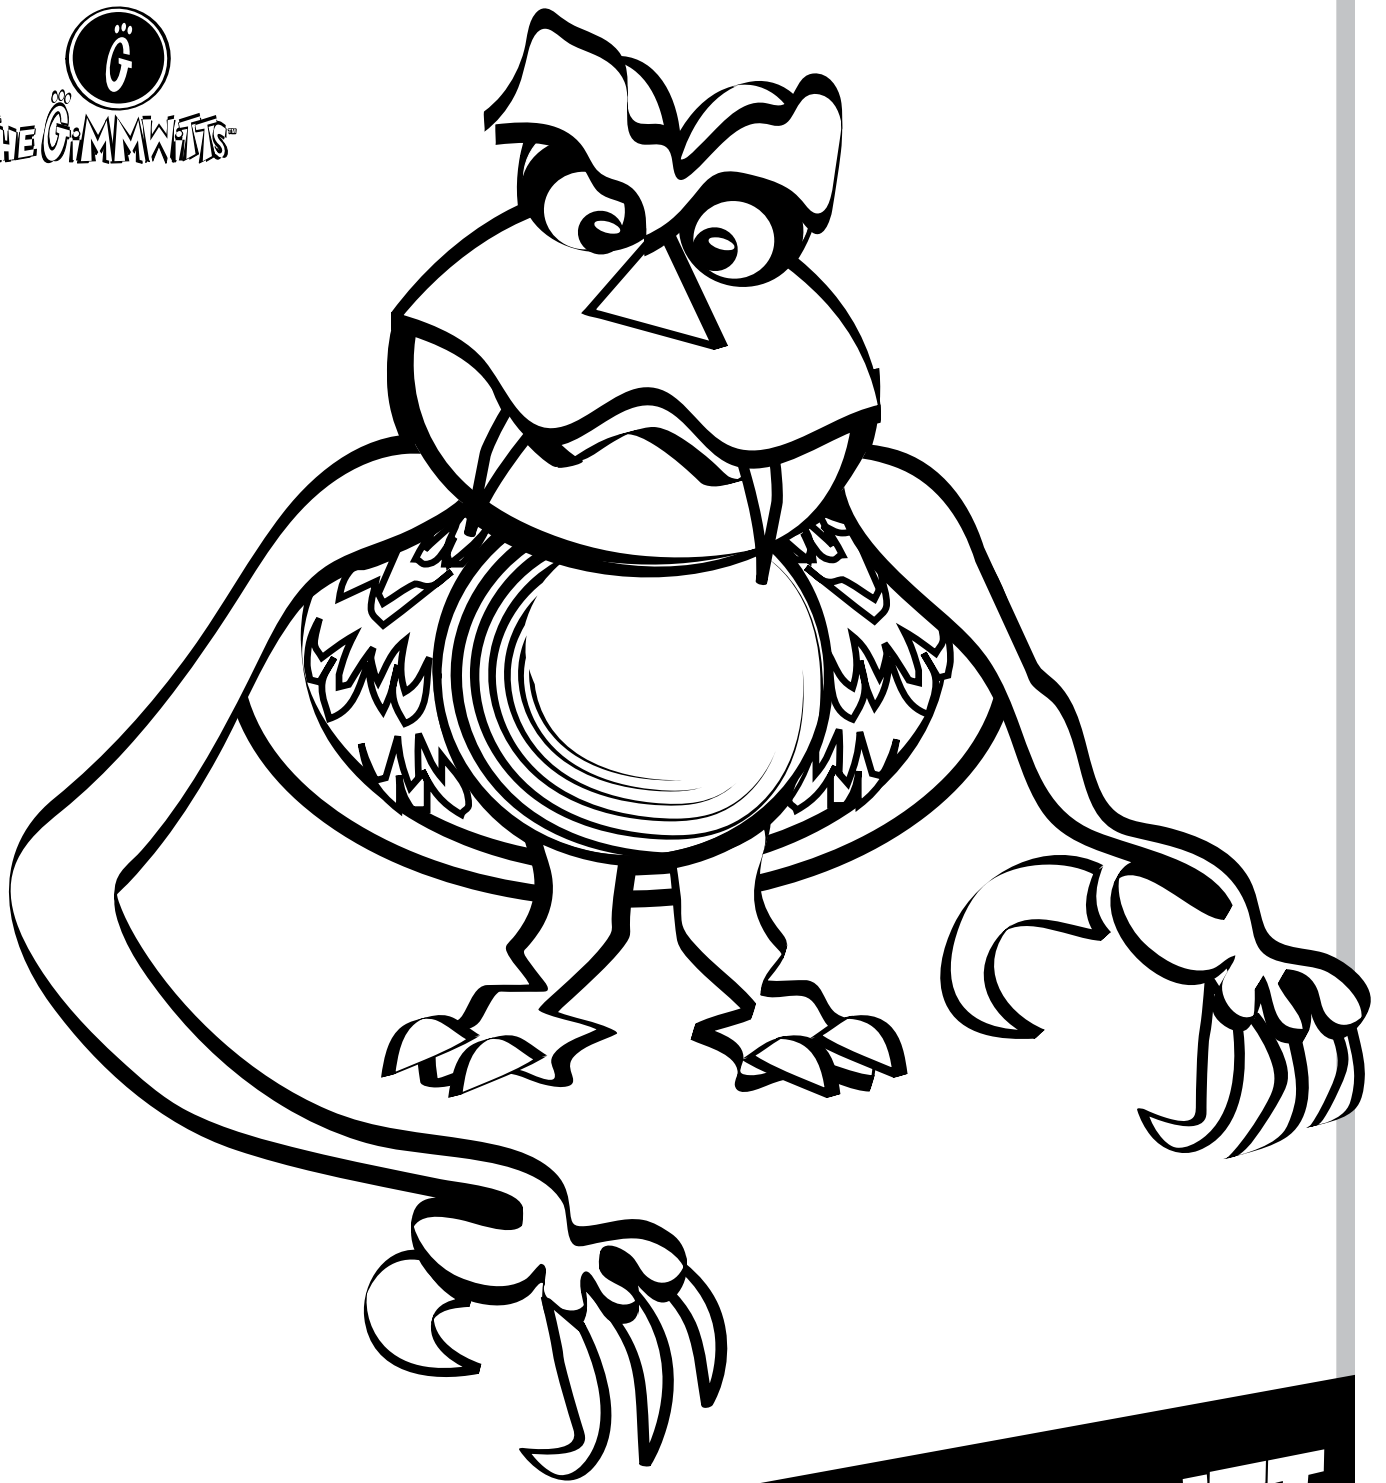

RUDICKER
THE RUDE

JUJAH BABY

(Jew-Jahh baby)

This is a baby (mini)
Flying Jewel.

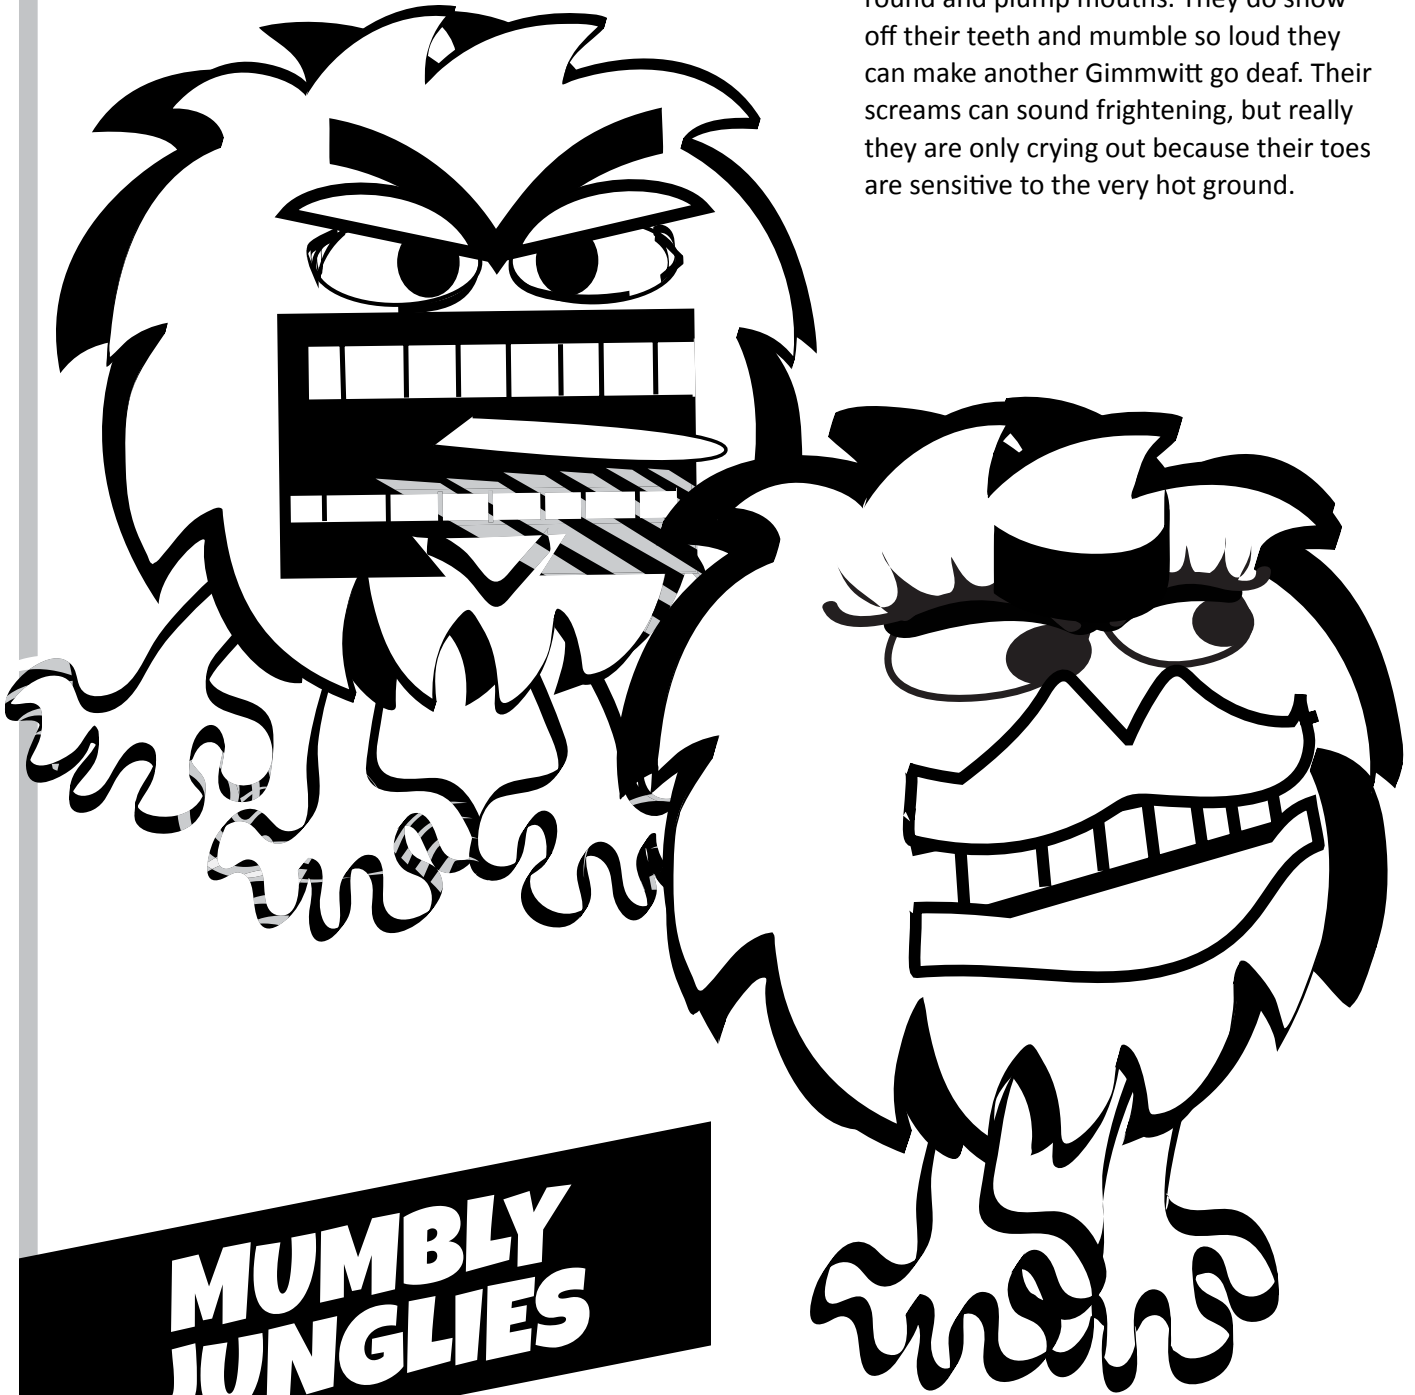

He looks like he's part frog and part doughnut, because he has a big hole in his stomach. He's a grumpy Gimmwitt in Gogajumble, the jungle world, but he's willing to be helpful when he sees a good Gimmwitt like Prince Globond in need.

GARBAGEGUTT

Mumbly boys have square shaped mouths, whereas Mumbly girls have somewhat round and plump mouths. They do show off their teeth and mumble so loud they can make another Gimmwitt go deaf. Their screams can sound frightening, but really they are only crying out because their toes are sensitive to the very hot ground.

**MUMBLY
JUNGLIES**
